About me

Economist and PhD student in Regional Science and Economic Geography at the Gran Sasso Science Institute (GSSI), with a Master's degree in Economics and extensive experience in teaching, research, consulting, and public policy development, with a strong focus on science, technology, and innovation (STI). Recognized as 'Junior Researcher' by the Ministry of Science, Technology, and Innovation (Colombia).

Proven leadership, communication, and project management skills, with substantial experience in drafting technical reports and policy documents. A highly motivated and dedicated professional, adept at applying economic analysis to social issues, performing well under pressure, and committed to continuous learning with strong attention to detail.
